He's a caveman in the 25th century and his dad is part of a stone axe. If you think that's a little unusual, you're right ... but so's everything about Flint: The Time Detective! Discovered during an archeological dig by someone who knows far more about him than they should, Flint is brought to the Bureau of Time and Space Investigations. Flint is de-fossilized but Dr. Goodman is less successful with his dad. Still, all is not right with the world: with time travel common enough to be available to everyone, criminals are using this awesome power for their own ends.

In this volume: Flint visits 1590's Japan, ancient Egypt, and 1850's Paris, where he must confront the evil Petra and keep her from corrupting the timeline. Contains episodes "Bubblegum," "Lynx," and "Artie."

VHS and DVD - same low price! The initial release of Flint was on the Billboard top kidvid chart for 3 weeks, and episodes consistently top all challengers in the ratings in their time slot!

Akira Takaoka's got a problem: he's the only computer nerd NOT to own a personal computer! Resolving to fix this problem, he finds himself with a new one: the machine he bought (and can't bring back) turns out to be ... decidedly ... female. Mechanical, yes. A computer, yes ... but NOT something to run a spreadsheet on. This machine wants nothing more than to please her master ... over and over again. Talk about user-friendly!

Life should be good for Akira, but sometimes the world isn't a nice place. While Pixie's one in a million that doesn't mean there aren't other around like her ... but not all the others are nice. In fact, several of them are downright malevolent! Worse, there are even more powerful (and nasty) biotype computers walking around free and most of THEM are involved in something pretty major! If catastrophe is going to be averted, Pixie (or, as Akira calls her, Mimi) is going to have to fight off lots of female biotypes and Akira is going to have to go beyond himself when it comes to making this little machine ... happy. And, human or not, there's one sure way to make the girls happy (hint: it doesn't involve candy or flowers).

Hope Akira's had plenty of oysters ...
